

Criminal Justice Policy: An Overview

What is the sequence of events in the criminal justice system?

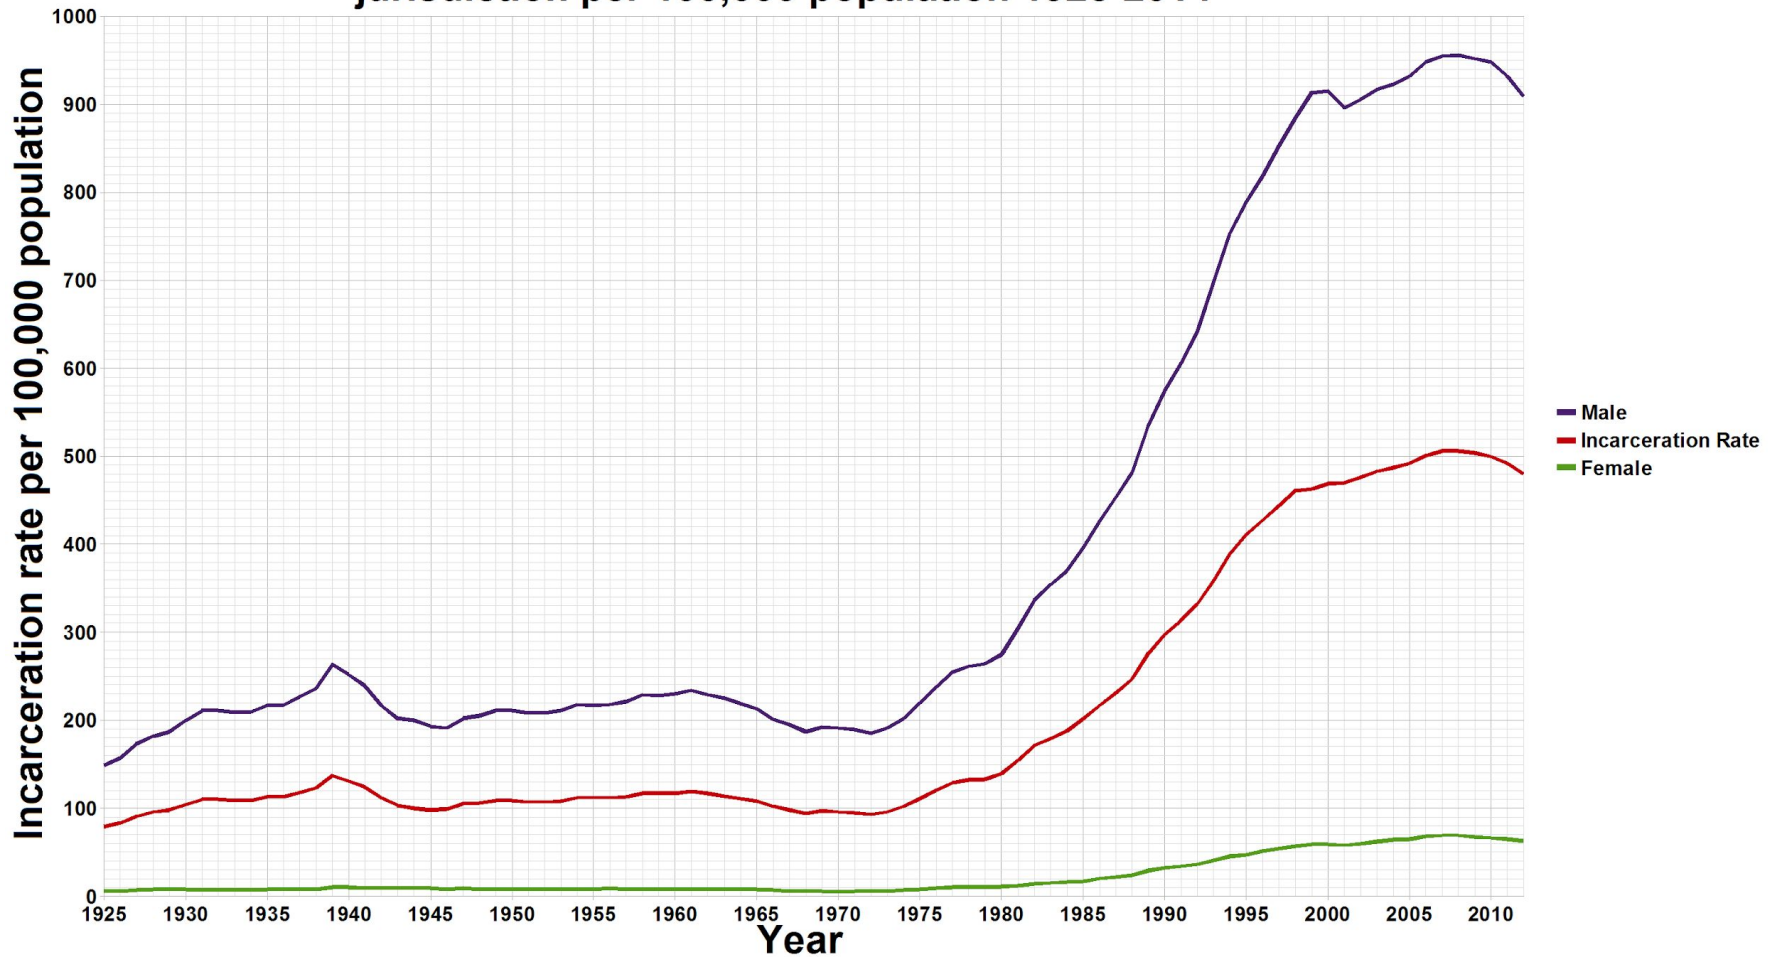

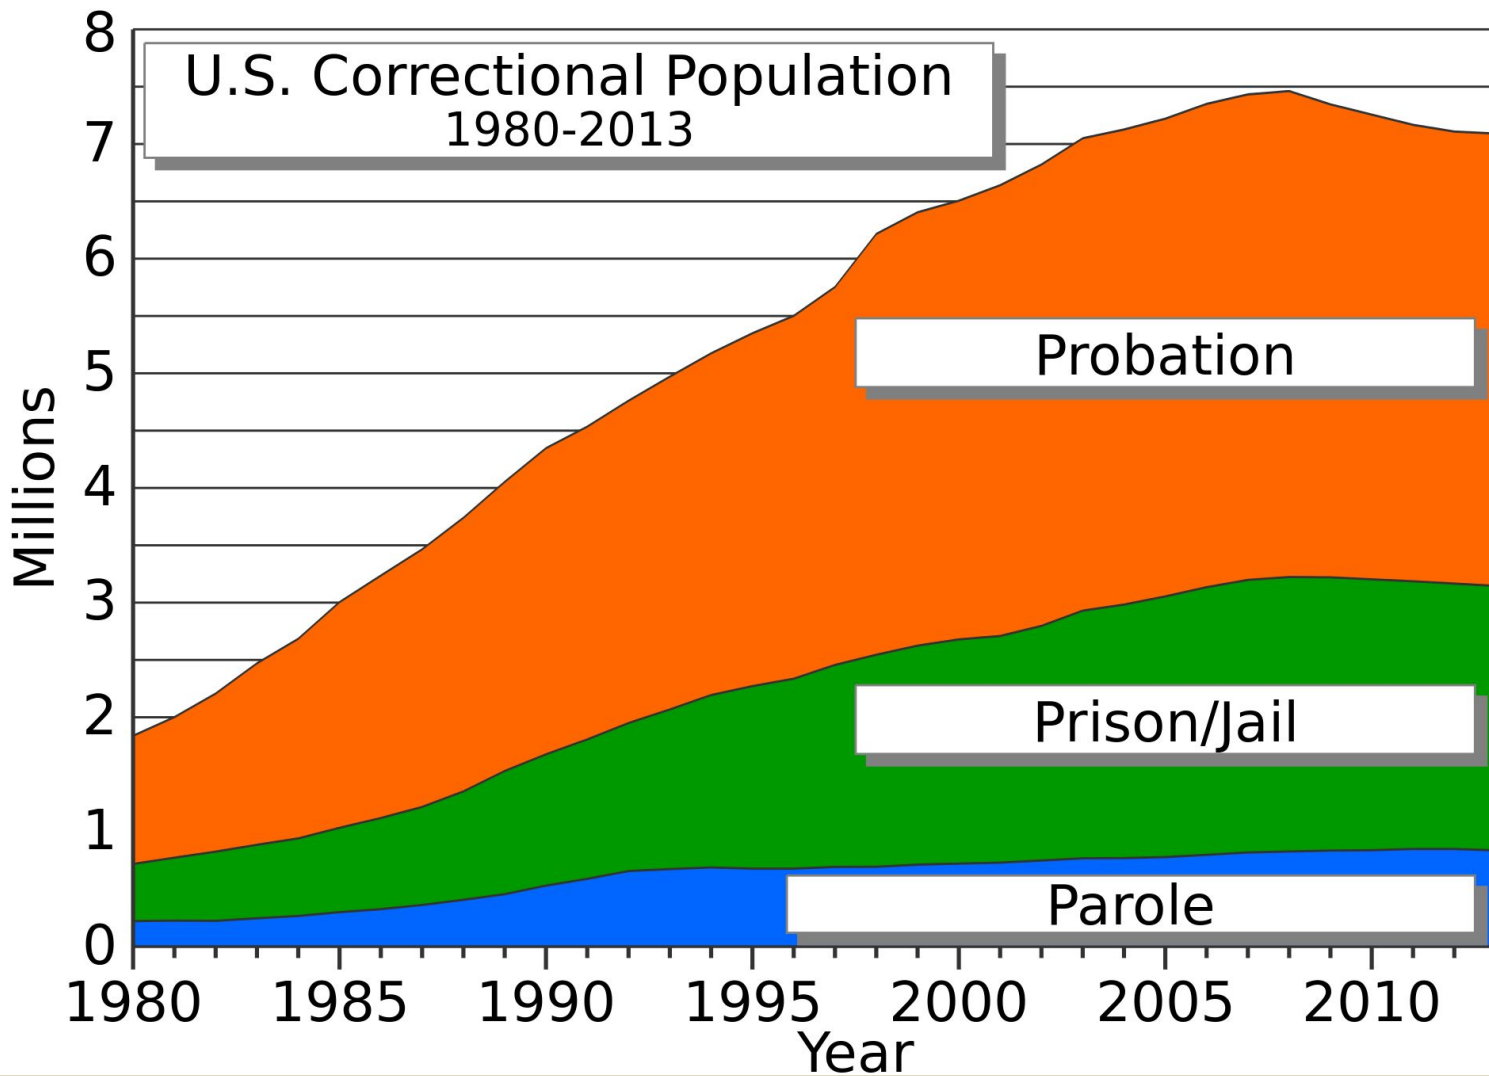

Note: This chart gives a simplified view of caseload flow through the criminal justice system. Procedures vary among jurisdictions. The weights of the lines are not intended to show actual size of caseloads.

How many people are locked up in the United States?

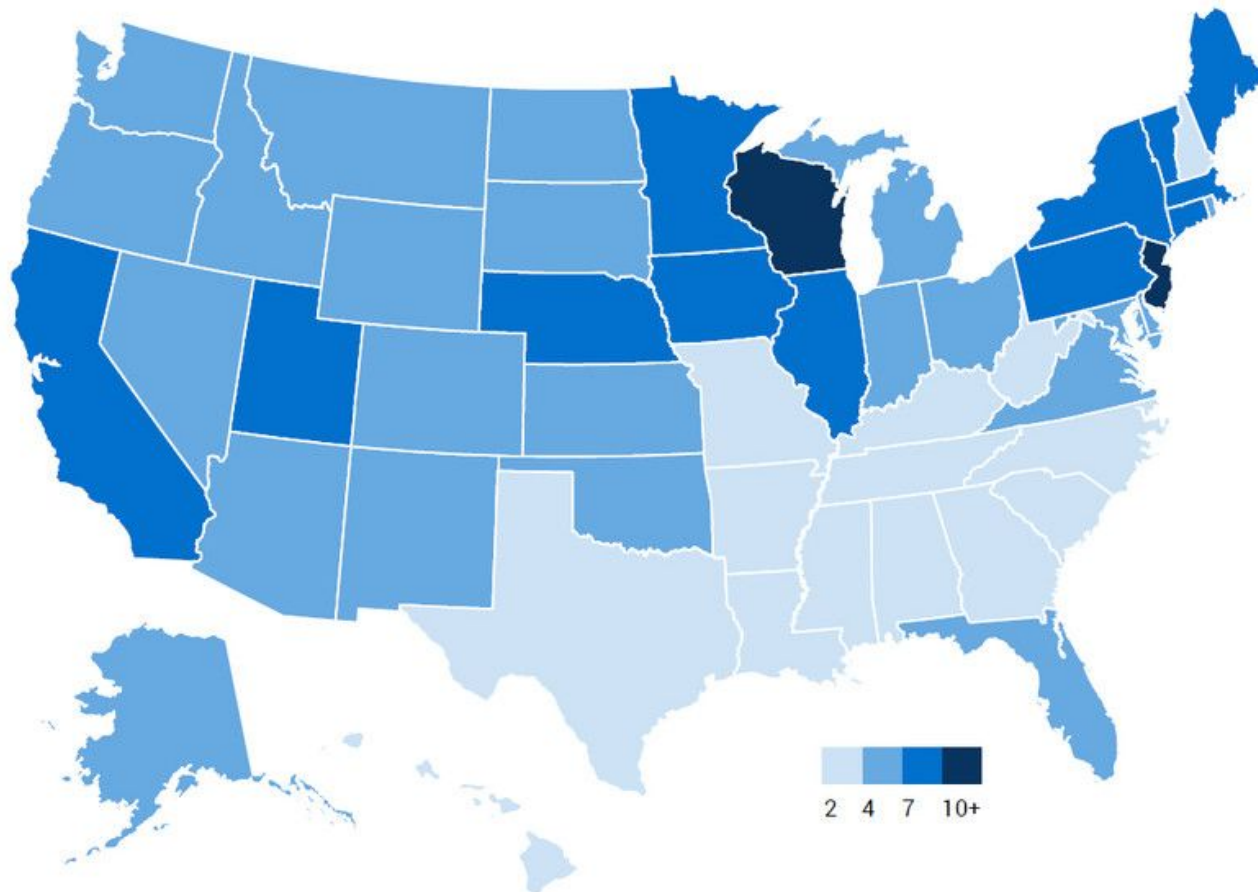

The U.S. locks up more people per capita than any other nation, at the staggering rate of 565 per 100,000 residents. But to end mass incarceration, we must first consider *where* and *why* 1.9 million people are confined nationwide.
